

About Me

portfolio: <https://ljlinen.github.io>

I am a passionate and flexible developer with solid skills in JavaScript, React, HTML, and CSS, along with backend experience in Node.js, Express.js, and Hono.js. I am eager to use my skills to work on meaningful projects while learning and growing in a professional setting. Open to junior developer roles and general work, I am ready to take on challenges with hard work and creativity.

Experience

- Worked as a part-time mobile phone troubleshooter at two local internet cafés: (3 months)
- Worked as a shopkeeper at a local spaza shop (5 months)
- Volunteered as a web developer for work-integrated learning for one month, as part of my qualification requirement (31 days)

Education

Hlonipha Sec School

2019 - 2020

Grade 12

Grade 12 with Sciences

Richfield GIT

2023 - 2024

Higher Certificate in Information Technology

Currently my highest level of education is a higher certificate in information technology. I do however plan on furthering my studies to a bachelors.
